

# CA-1000 Enteral Feeding Pump

## MAIN FEATURES

- Helps both pediatric and adult tube fed patients to maintain a normal lifestyle.
- Accurately delivers programmed doses of enteral nutrition, allowing patients to comply with prescribed feeding schedule.
- Continuous and intermittent feeding programs.
- Selectable flow rates from 0.1 ml/h to 600 ml/h.
- Operates in any orientation; 24-hour battery.
- Large visible OLED display and easy-to-use keypad facilitates caregiver and patient use.
- Portable and flexible: weighs only 0.5 kg/1.3 lbs.; completely portable and easy to carry in a custom-designed carry pack.

## SAFETY

- Maintains +/- 5% accuracy of the volume to be delivered at any flow rate.
- Advanced alarm system with audible and visible alarm messages.
- Anti-free-flow pump set ensures patient safety and an accurate delivery of nutrition.
- DEHP-Free pump set protects the patients from any adverse side effects associated with DEHP.

## Product Specifications

Continuous Feeding Modes	1. Flow Rate/Volume Mode: Flow Rate: 1-600ml/h      Increments: 1ml/h. Volume Limit: 1-9999ml/h      Increments: 1ml.  2. Flow Rate/Time Mode: Flow Rate: 1-600ml/h      Increments: 1ml/h Feeding Period: 0-24h      Increments: 1min.
Intermittent Feeding Mode	Set Various Flow Rate at Various Periods Flow Rate: 1-600ml/h      Increments: 1ml/h Feed Interval: 10min-24h      Increments: 10min.
Disposable Pump Set	Use Canafusion 1000 ml Enteral Pump Set
Accuracy	±5%
Flow Pressure	15 psi
Safety Operation	Keypad Lockout
Alarms	Tubing not loaded, Delivery not started, Tubing dislodged, Delivery error, Delivery complete, Low battery, Battery depleted
Operation Power	DC power: 10VDC; 1.5A
Power Consumption	≤15VA
Battery	Built-in rechargeable lithium battery. 24-hour operation @25ml/h.
Battery Charge Time	16 hours.
Occlusion Pressure	5.8 – 23.2 psi
Dimensions	165 (W) mm x 60 (D) mm x 130 mm (H)
Weight	590 g/1.3 lbs. (built-in battery included)
